Art Unit: 2811

1. Claim 24 is objected to because of the following informalities: lines 1-2, the phrase "the material barrier layer" has no antecedent basis. Appropriate correction is required.
2. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25, line 2, the phrase "N₂O a combination thereof" is unclear whether it is being referred to "N₂O or a combination thereof".

3. Claims 1-15, 17, 18 and 20-22, 26 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: The additional major difference in the claims over the prior art of record is the step of forming a CVD conformal liner material layer. Agahi et al. disclose the conformal liner material is made by the sputter deposition process.
